*Follow the road  
of love and peace  
Through times of trouble  
and times of pain  
Follow the road  
of love and peace  
Through times of sorrow  
and times of joy  
Follow the road  
of love and peace  
Through times of wealth  
and times of poverty  
Follow the road  
of love and peace  
and meet your fellow man.*

*B. Buckman*

It would seem that gratitude is only given to finding of mighty nuggets of gold, and not the particles of iron in a dish of sand. To find the large problem is not difficult but to search for the small hidden problems with clumsy fingers, and to be unable to detect them, is no asset. But to go through the dish of sand with a magnet and attracting all the particles of sand is truly an asset: and so we thank you Mr. Killion and Miss Gilson, and we thank you Mr. Morton and Mrs. Clinton for being our attracting magnets.

## “We May Never Pass This Way Again”

Life - so they say  
Is but a game and they let it slip away  
Love - like the Autumn sun  
Should be dying but it's only just begun  
They don't see just where we're goin'  
And all the secrets in the universe  
Whisper in our ears and all the years will come and go  
And take us up always up

We may never pass this way again  
We may never pass this way again  
We may never pass this way again

Dreams - so they say  
Are for fools and they let them drift away  
Peace like the silent dove  
Should be flyin' but it's only just begun  
Like Columbus in the olden days  
We must gather all our courage  
Sail our ships out on the open sea  
Cast away our fears and all the years will come and go  
And take us up - always up

We may never pass this way again  
We may never pass this way again  
We may never pass this way again

So I wanna laugh while the laughin' is easy  
I wanna cry if it makes it worthwhile  
I may never pass this way again  
That's why I want it with you  
Cause you make me feel like I'm more than a friend  
Like I'm the journey and you're the journey's end  
I may never pass this way again  
That's why I want it with you baby

We may never pass this way again  
We may never pass this way again  
We may never pass this way again  
We may never pass this way again

## THE CLASS OF 1976 TRAVELOGUE

It was fall of '72 that we, the class of 1976 took the on-ramp marked "E.W.H.S." There we were, without even the aid of a map as we began our journey. Of course, it was also Mr. Morton's first year as Highway Commissioner here, so at least we started off on equal footing. But Mr. Franco, as head of Traffic Control, was already well-established and made sure that we all stayed in our proper lanes.

The seniors though, tried to give us direction. They decided that we were not visible enough (a safety hazard) and so came to our rescue with hats and bright lipstick. Now really, while their intentions were appreciated, they might have made us just a bit too visible.

It must be said that our road crew that year did their best to pave the way for us. It consisted of Kevin Tiernan, Foreman; Donald Rajala, Surveyor; Tom Percoski, Toll Collector; and Lisa Van Brederode in charge of licenses and records.

As the year progressed, we successfully got our bearings and as we came to the end of our first lap on the E.W.H.S. Turnpike we felt sure that we had gotten well used to the road conditions. Even still, 1976 seemed far beyond the horizon at that point.

As our convoy moved into second gear, we found that Mr. Franco

had taken his exit. In his seat we met Mr. Saitta, who policed the halls quite adequately. We will long remember his conscientious issuing of speeding tickets, and his guard against illegal parking at the Four Corners.

That year we were driven by: Bruce Van Cleve, Theresa Dingess, Donald Rajala, and Missy Pierce. They kept us running on the straight and narrow, obeying the signs along the way. If we did run across a mishap, it was always reassuring to have Mrs. Pansky there to administer first aid and body work if needed.

In the spring we got a green light (limited released time) and so spent a great deal of time at the filling station refueling with many an apple pie and corn chip. And as we made ready for our second pit stop, we received our ornaments (class rings).

As we continued to lope along on the third lap of our journey, we did realize that time was speeding by. We had moved into yet another passing lane. But also, we had a lot of ground to cover before we were through.

We were given very able direction that year by Kevin Tiernan, Theresa Dingess, Pam Coviello, and Missy Pierce.

Along the way, many of us decided to provide roadside diversion. And so, teaming up with some of the older models, many lunches in

the filling station were spent in song, sounding much like an in-car radio of some years back.

One of the pleasant stops along the way was the Prom, May 10th. That night we were all washed, waxed, and polished. We had a great time, as it gave us a chance to spin our wheels a bit, but with class. For many of us though, it took a few days to recharge our batteries, but we took it all in stride.

Finally, as the year drove on to a close, we realized that the day would soon come when we would leave this route. The next off-ramp would be ours.

We shifted into high gear as our senior year began. Nationally, President Ford had established a slower speed limit, but it seemed that the calendar paid little attention to it as we raced along the road.

Leading the way that year were Karen Norton, Theresa Dingess, Pam Coviello, and Lynne Roberge. They did a fine job, keeping us all alert to the fact that we had to make the most of our time.

There were several pleasant detours along the way in 1975-76. In December, the Senior Banquet was held. It was a most enjoyable refueling stop. Flo Beckman was able to sell road maps incredibly well, along with a few magazines (in fact she sold the winning number of subscriptions during the Senior Magazine Sale).

And of course, it was during our Senior Year that we won the Pep Rally (some have called it a Demolition Derby of sorts). It was followed by Wagner's Massacre. My, my, was that a night to remember.

All journies to an end of course, and before long, we too found our exit. It was sad to pass so many friends by as we all found our separate routes. But yet, each parting was but the start of another turnpike. We will long remember the place where we got our first wheels, and those we rode with.

And so we exit the E.W.H.S. Freeway. We leave it to the newer models, hoping with certainty that their travels here will be as educational, pleasant and memorable as ours were.

Take the wheel.

"Charge!"

Who were some important people this year? Well, Cheerful Mr. Morton, who helped to get us through all of our last moments as though they were our first ones. Then, there was, of course, the mighty Seniors!! We had a lot of assorted things to do. Art, studying, goofing off, goofing off and still more goofing off. But mostly we were too busy being grateful that we had finally made it to our Senior year, that sure is something to think about. Especially with the bicentennial being here and it being our duty to "Get in the Spirit of 76!" It wasn't too hard for this class to find ways to CELEBRATE!!! Alright!

Really? 200 years!

Some people are always "behind."

"What's the joke?"

Who are these crazy dudes??!

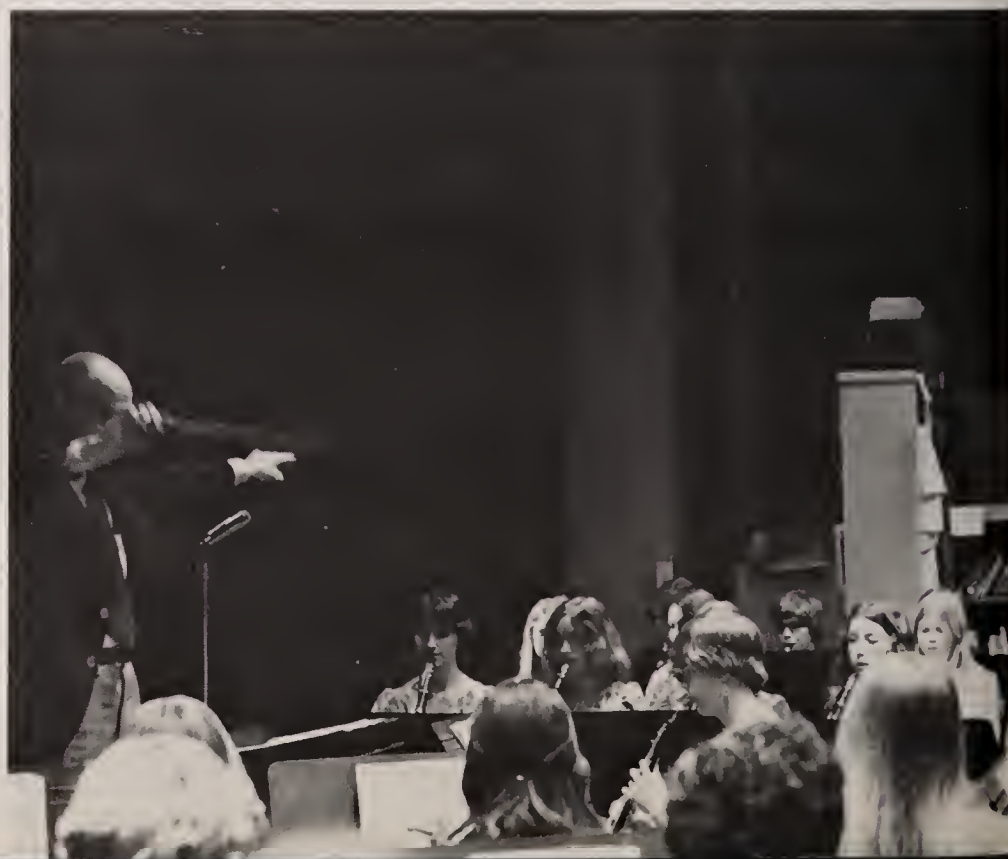

What a way to go . . .

Hey this is fun, let's do it again.

I bet if they see one more magazine, they'd lynch Mr. Army!!!

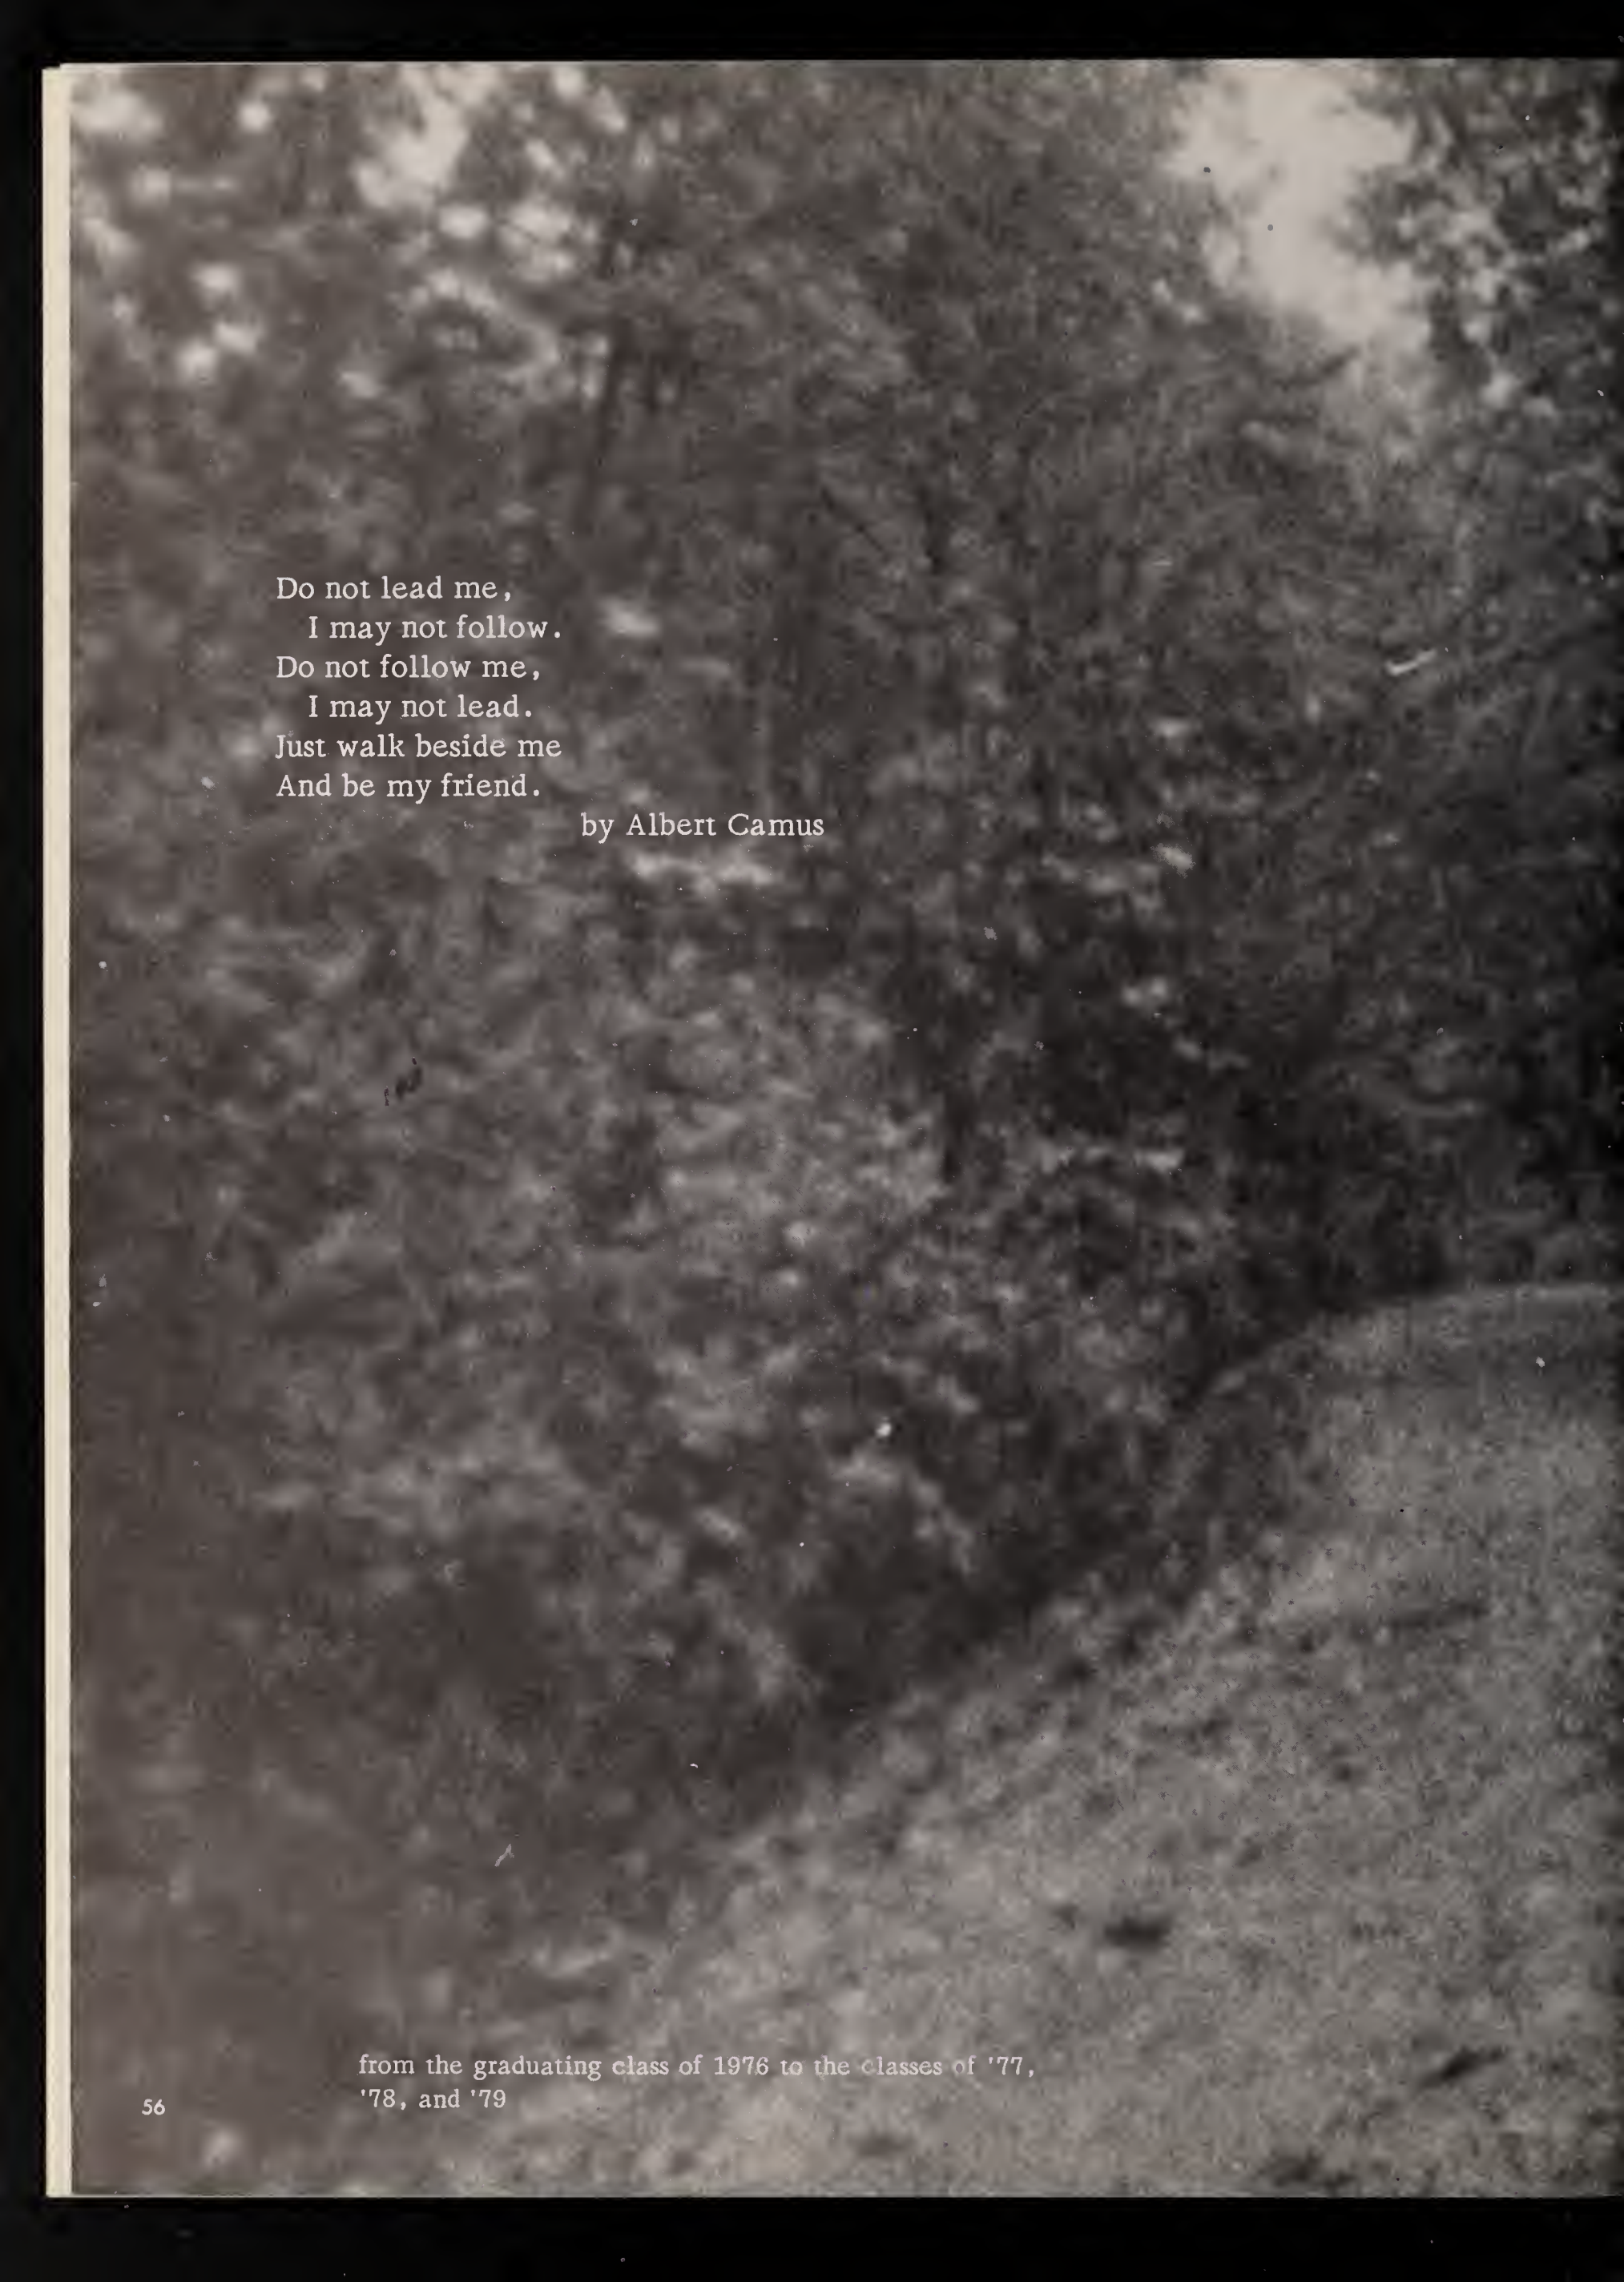

Umm, ketchup and ice cream!!

Well, as individuals we sure have gotten into a lot of different things in the past 4 years, and quite a lot just this past year, too. As people doing what we feel comes natural, we've scored 10000 in every game, and had fun doing it. Everything from sports, to music, back to fund raising, and then to partying, it sure was fun. We've had all kinds of support. From the staff, at critical times when it was needed, and just from the other people in our class, our friends. And each time has brought us closer, now we're Seniors, and our memories will always be there, but by placing a few photos in a book, we the archive staff hope we have further preserved those thoughts for you.

Do not lead me,  
I may not follow.  
Do not follow me,  
I may not lead.  
Just walk beside me  
And be my friend.

Chorus, under the new direction of Ms. Stacey has finally become a credit course. They take part in the concerts and sing for various local groups.

The group meets three times weekly to rehearse songs which will be sung at their various concerts. In addition, the students learn to read and write musical numbers to aide in the understanding of musical compositions.

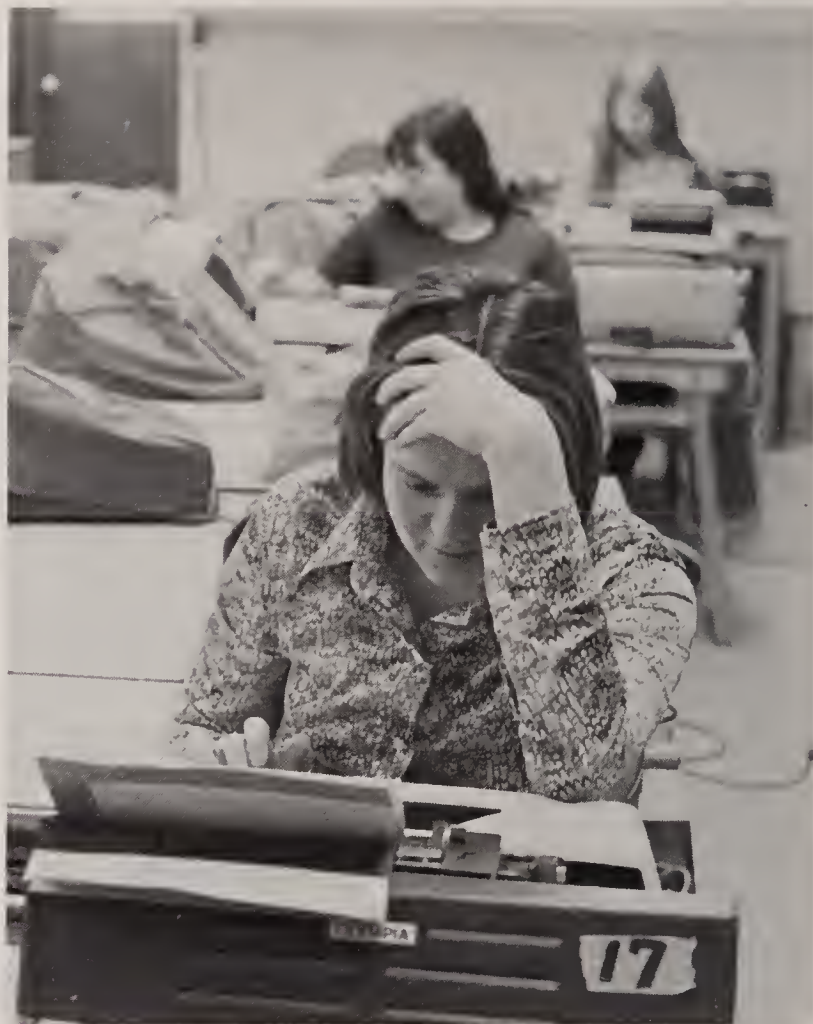

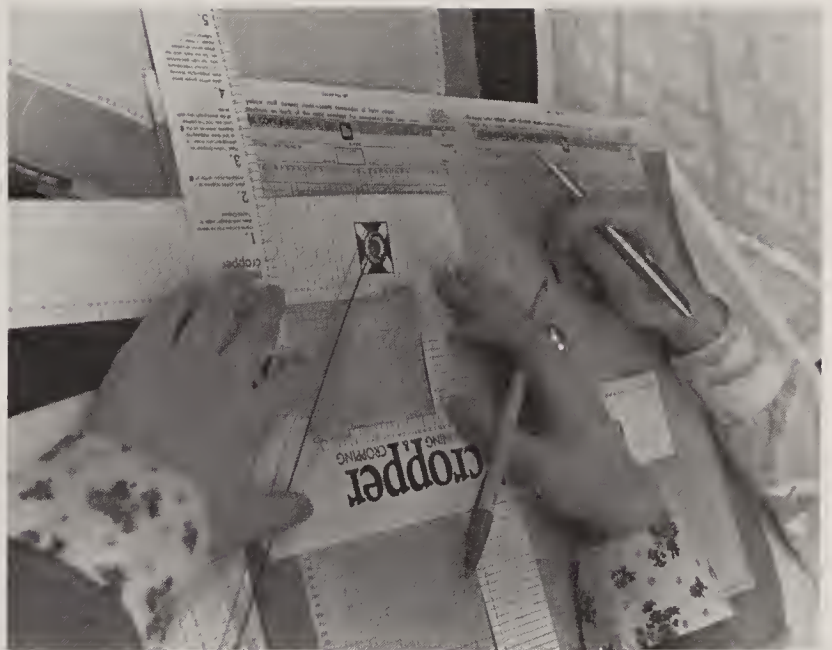

THE '76 ARCHIVE STAFF: Richard Organek, Paula Jasinski, Cookie Blouin, Carol Martin, Lori Parker, Sue Ellsworth, Jeanne Pitney, Sue Quagaroli, Shelley Craig, Bruce Winn, Karen Norton, and a special membership to whomever it was that helped us through the impossible and made it possible to get this edition done.

The Diamond Center wonders if you have noticed that all the cliches and adjectives that are used to describe the beautiful rose could also be used to describe the precious diamond? The rose is often referred to as the most magnificent of all gems. Roses are available in hundreds of varieties, different colors, sizes, and shapes. And certainly every young man in love has at least once given his young lady a rose while anxiously awaiting the date of their engagement . . . at which time he will symbolically present his intended with a diamond engagement ring. There is, however, one very important way in which these two wonders of nature differ . . . Diamonds are forever . . . while roses are for the fleeting moment when you need diamonds . . . for lovers or Latherious, or collection - for any purpose . . . call on the Diamond Center at Swedes. You'll get the quality service and value you want . . . and are entitled to receive!!!
